**R22:** Continue pattern and finish elf

## Hat:

I made my hat with 2 colors. I decided to use an unused color for the main, and made a band using **Leggings**. I chose not to do the underside of the hat in the main pattern for this one, but that decision is totally up to you!

To add a small band:

After **R28**, change to band color using the **clean color change technique**. Count the slst round of the color change as **R29** and the sc in BLO of the color change as **R30**.

Change back to the main hat color at **R30** and proceed with the pattern but do not sew on the hat.

## Hair:

### Hair around the inside of the hat

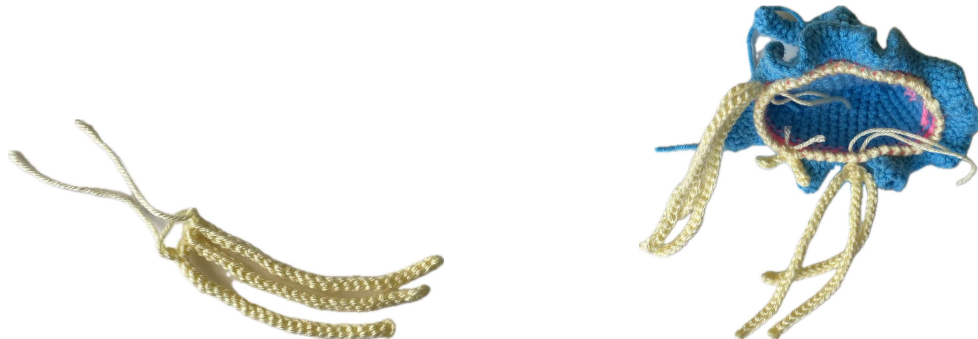

Before sewing the hat onto the head, you will want to add the elf's hair onto the hat. Hold the hat upside down, with the back of the hat away from you. With **Hair**, make a S1St and pull it into the BLO of **R31** on the inside of the hat. Working around the hat counter-clockwise, make a [twisted SC st](#) in the BLO of **R31** around. Join and weave in ends.

### Bangs

Make a MR with a 3" tail. \*Ch6. S1St in 2nd st from hook and back down ch. SC into MR\*. Repeat \*-\* one or two more times. Trim a 3" tail and pull MR closed. Tie tails to the hairline. Trim and hide ends inside the hat.

### Braids

Make a MR with a 3" tail. \*Ch26. S1St in 2nd st from hook and back down ch. SC into MR\*. Repeat \*-\* two more times. Trim a 3" tail and pull MR closed. Tie ends together and onto the hairline in front of the ears. Trim and hide ends inside the hat. Braid the 3 strands together and tie with a hair tie.

### **Hair Ties (make 2)**

Using whatever color you wish, make a slip knot and ch25 using a very tight tension. Trim and pull tight. Tie around the end of the braids.

Now sew the hat onto the head using the band color if you made one, or the main color if not. Follow the original pattern to shape the hat.

If you would like to make a Tiny Sunflower applique like the one on my hat, that is a free pattern available on my blog: [thewhimzb.com](http://thewhimzb.com).

Thank you so much for your interest in my pattern! Make sure to tag me on social media so I can see your creations 😊.
